

Project Management and Cost Consultancy of Gym Refurbishment

Nuffield Health & Wellbeing, Harrogate

Bradley-Mason LLP's Project Management team delivered a "premier upgrade" refurbishment to the Nuffield Health, Fitness and Wellbeing Centre in Harrogate.

The project focused on delivering a high quality refurbishment to existing wet and dry provisions and completion of a new healthcare facility to meet Nuffield's bespoke approach to wellbeing, at a cost of over £1 million.

By maintaining a fully operational facility with minimal disruption, Bradley-Mason LLP were able to retain overall member satisfaction and deliver a successful refurbishment.

Cost control was also of key importance, through careful forecasting, monitoring and value engineering, Bradley-Mason LLP were able to conclude the project both on time and within budget, despite a number of variations.

Upfront planning and programming were also key to the success of this project and, through our knowledge of the procurement process, we were able to overcome problems associated with the summer shut down of European suppliers. The project was a success and we are proud to have played our part in making the vision a reality.
