

Transport Sector

Bradley-Mason LLP have worked as property consultants for a number of transport sector clients (and clients with transport needs) to design, deliver and manage the acquisition, fit-out and refurbishment of a wide-variety of properties. Our proactive staff work hard to maintain our high-standards and deliver a quick turnaround. With a transparent fee structure and a team of experienced personnel it is easy to see how we have secured an impressive portfolio of clients.

Manchester Airport:

Our team has successfully completed a number of instructions for Manchester Airport including project management, design and defect analysis on a variety of transport facilities and are accustomed to dealing with their strict security policies.

One Rail (National Express):

Bradley-Mason project managed the delivery of this impressive £2 million training centre for rail staff. The unique scheme created a clean, modern and practical environment complete with a state of the art Train Simulator.

National Express and Eurolines:

We worked with National Express on over 30 instructions to design and project manage the refurbishment and fit-out of their transport terminals.
