

Trade Counters

Bradley-Mason LLP can assist trade counter clients with their bespoke needs at all stages of the property lifecycle. With a range of well-known clients we have advised on acquisitions and disposals whilst also delivering the design and management of national roll-out schemes.

Toolstation

Since developing Toolstation's national roll-out strategy in 2008 we have continued to work with Toolstation to deliver over 300 sites, a second and third distribution centre as well as the expansion of their head office undertaking all stages of survey, LLs negotiation, design and management.

Hewden Hire

Following our involvement with Hewden on their Olympic Park satellite facility we have acted for them in a range of dilapidations, defects diagnosis and project management jobs.

Speedy Plc

We have acted on a national basis for Speedy and advised on all aspects of building surveying. We have designed and managed their Superstore roll-out and successfully negotiated over 30 dilapidations claims on closed sites as part of their rationalisation programme.

Formula 1 Autocentres

We were pleased to be appointed as lead property consultant in their expansion and national roll out. We undertook a full review of the procurement process to ensure build cost were minimised. Not only were costs reduced but the time onsite was significantly reduced and all sites to date opened on the predicted date.
